- Non-GAAP ⁽³⁾ net income attributable to Changyou.com Limited was US\$78 million, exceeding guidance by US\$38 million ⁽²⁾, due to improvements in operating efficiencies and the net effect of a few one-off events⁽²⁾. - Non-GAAP net income attributable to Changyou.com Limited per fully-diluted ADS⁽⁴⁾ was US\$1.43. This compares with US\$0.95 in the second quarter of 2015 and US\$0.07 in the third quarter of 2014.

Our industry-proven R&D team with extensive experience in MMO PC games is now realigning to the development of hard-core mobile games. In addition, our strong portfolio of valuable IP will significantly increase the likelihood of a successful game and provide additional possibilities to expand our revenue streams."

⁽¹⁾ In the third quarter of 2015, depreciation of the RMB against the U.S. dollar had an impact of \$3 million on our reported financial results, compared with the same quarter last year, and an impact of \$5 million, compared with the preceding quarter. Using a constant foreign exchange rate, total revenues increased by 6% year-over-year, and decreased by 4% quarter-over-quarter.

⁽²⁾ As the completion date of the sale of the Company's 7Road business and certain overseas assets was uncertain when the Company's guidance for the third quarter of 2015 was issued, expected results for 7Road for the third quarter and expected gain recognized upon the divestment of 7Road and certain overseas assets were excluded from the Company's third quarter guidance. The sale of 7Road and certain overseas assets was completed on August 17, 2015, and accordingly the Company's results for the third quarter as reported here include the results of the 7Road business prior to that date and the Company's Non-GAAP net income attributable to Changyou.com Limited reported here includes gain recognized upon the divestment of 7Road and certain overseas assets. Also not included in the Company's third quarter's guidance was an impairment charge related to the Dolphin Browser recognized in the third quarter.

Explanation of the Company's non-GAAP financial measures and related reconciliations to GAAP financial measures are included in the accompanying "Non-GAAP Disclosure" and "Reconciliations of Non-GAAP Results of Operations Measures to the Nearest Comparable GAAP Measures."

Third Quarter 2015 Operational Results

- Total average monthly active accounts ⁽⁵⁾ of the Company's PC games were 4.1 million, representing a decrease of 62% year-over-year and 7% quarter-over-quarter. The year-over-year and quarter-over-quarter decreases were partially due to the Company's continued efforts to shut down inauthentic accounts to ensure a balanced in-game environment for TLBB, and were also a result of the natural progression of older games.
- Total average monthly active accounts of the Company's mobile games were 2.4 million, representing an increase of 71% year-over-year and a decrease of 58% quarter-over-quarter. The year-over-year increase was largely due to the launch of TLBB 3D in the fourth quarter of 2014. The quarter-over-quarter decrease was a result of a decline in the total average monthly active accounts of the Company's mobile games TLBB 3D, Dashfire and Twin of Brothers, which was consistent with the typical progression of mobile games.
- Total quarterly aggregate active paying accounts ⁽⁶⁾ of the Company's PC games were 1.3 million, representing a decrease of 13% year-over-year and an increase of 18% quarter-over-quarter. The year-over-year decrease was a result of the typical progression of older games. The quarter-over-quarter increase was mainly due to an increase in the total quarterly aggregate active paying accounts of Steel Ocean and the launch of two new PC games, Dragon Slayer and Warframe, in the third quarter of 2015.
- Total quarterly aggregate active paying accounts of the Company's mobile games were 0.6 million, representing an increase of five-fold year-over-year and a decrease of 57% quarter-over-quarter. The year-over-year increase was largely due to the launch of TLBB 3D in the fourth quarter of 2014. The quarter-over-quarter decrease was a result of a decline in the total quarterly aggregate active paying accounts of TLBB 3D, Dashfire and Twin of Brothers, which was consistent with the typical progression of mobile games.

Third Quarter 2015 Unaudited Financial Results

Revenues

Total revenues were US\$189 million ⁽¹⁾, representing an increase of 4% year-over-year and a decrease of 7% quarter-over-quarter, exceeding guidance by \$7 million. ⁽²⁾

Online game revenues were US\$153 million, flat year-over-year and representing a decrease of 12% quarter-over-quarter, exceeding guidance by \$8 million.⁽²⁾ The quarter-over-quarter decrease was mainly due to the decline in revenues from TLBB 3D as a result of the typical progression of the life cycle of mobile games, and the completion of the sale of the 7Road business during the quarter, as well as an impact

from the depreciation of the RMB versus the US dollar.

Online advertising revenues were US\$18 million, representing an increase of 9% year-over-year and 21% quarter-over-quarter. The year-over-year increase was mainly due to an increase in the utilization rate of advertising on the 17173 website, as well as an increased revenue contribution from mobile game advertisers. The quarter-over-quarter increase was mainly due to a seasonal pickup that is typical for advertising in China in the third quarter.

Internet value-added services ("IVAS") revenues decreased 27% year-over-year and 14% quarter-over-quarter to US\$5 million. The year-over-year decrease was mainly due to decreased revenues from wan.com, the Company's platform for operating Web games of third-party developers, as the Company closed this website during the first quarter of 2015. The quarter-over-quarter decrease was a result of lower revenues from PC and mobile products in the third quarter of 2015.

Other revenues, which consist of cinema advertising revenues, increased 99% year-over-year and 52% quarter-over-quarter to US\$13 million. The cinema advertising business benefited from strong growth of China's movie and cinema industry in general, which largely drove the year-over-year increase in revenues. The quarter-over-quarter increase was mainly due to a seasonal pickup of the cinema business during the summer holidays.

Gross profit

GAAP and non-GAAP gross profit were both US\$140 million, representing an increase of 7% year-over-year and flat quarter-over-quarter. Both GAAP and non-GAAP gross margin were 74%, compared with 70% and 71%, respectively, in the second quarter of 2015 and 72% for both in the third quarter of 2014.

GAAP and non-GAAP gross profit of the online games business were both US\$118 million, flat year-over-year and representing a decrease of 8% quarter-over-quarter. Both GAAP and non-GAAP gross margin of the online games business were 77%, compared with 75% in the second quarter of 2015 and 77% in the third quarter of 2014. The quarter-over-quarter increase in gross margin was due to a smaller revenue contribution from mobile games, which typically require additional revenue-sharing payments.

Both GAAP and non-GAAP gross profit of the online advertising business were US\$16 million, representing an increase of 26% year-over-year and 32% quarter-over-quarter. Both GAAP and non-GAAP gross margin of the online advertising business were 86%, compared with 79% in the second quarter of 2015, and 74% in the third quarter of 2014. The year-over-year increase in gross margin was due to an increase in online advertising revenues, as well as a reduction in personnel-related costs. The quarter-over-quarter increase in gross margin was due to an increase in online advertising revenues

Both GAAP and non-GAAP gross profit for the IVAS business were US\$1 million, compared with US\$1 million in both the second quarter of 2015 and the third quarter of 2014.

Both GAAP and non-GAAP gross profit of the other business were US\$5 million, compared with US\$1 million in both the second quarter of 2015 and the third quarter of 2014. The year-over-year increase was mainly due to an increase in the cinema advertising business which benefited from strong growth of the overall movie industry in China. The quarter-over-quarter increase was mainly due to a seasonal pickup of the cinema business during the summer holidays.

Operating expenses

Total operating expenses were US\$117 million, representing a decrease of 12% year-over-year and an increase of 20% quarter-over-quarter. Operating expenses in the third quarter of 2015 include US\$40

million of impairments to goodwill and intangibles via acquisitions of businesses, largely related to the Dolphin Browser business.

Product development expenses were US\$40 million, representing a decrease of 25% year-over-year and a decrease of 6% quarter-over-quarter. The year-over-year decrease reflected a reduction in salary and benefits due to a reduction in workforce, which was partially offset by an impairment charge that was recognized for a number of PC and mobile game assets in the third quarter of 2015. The quarter-over-quarter decrease was mainly due to a downward adjustment of share-based compensation expense as a result of fluctuations in the market price for the Company's ADSs, which was partially offset by the impairment charge that was recognized for a number of PC and mobile game assets in the third quarter.

Sales and marketing expenses were US\$22 million, representing a decrease of 59% year-over-year and 34% quarter-over-quarter. The year-over-year decrease was mainly due to a significant reduction in marketing and promotional spending for mobile internet products over the last four quarters. The quarter-over-quarter decrease was mainly because of a change in marketing strategy from large-scale offline campaigns in the second quarter of 2015 to a more targeted marketing approach, as well as fewer games and expansion packs being launched in the third quarter of 2015.

General and administrative expenses were US\$15 million, representing a decrease of 46% year-over-year and 34% quarter-over-quarter. The year-over-year decrease was mainly due to a reduction in salary and benefits as a result of a reduction in the workforce. The quarter-over-quarter decrease was mainly due to a downward adjustment of share-based compensation expense as a result of fluctuations in the market price for the Company's ADSs.

Goodwill impairment and impairment of intangibles via acquisitions of businesses was US\$40 million. The impairments were mainly related to the Dolphin Browser business, which was acquired in 2014. Due to a change in the Company's strategic direction for some of its mobile internet products in the third quarter, the Company determined that there were significantly reduced synergies between its mobile internet products and the Dolphin Browser, and that impairment charges were required to reflect the fair value of the Dolphin Browser.

Operating profit

Operating profit was US\$24 million, which includes an impairment charge of US\$40 million mainly related to the Dolphin Browser. This compares with an operating profit of US\$45 million in the second quarter of 2015 and an operating loss of US\$3 million in the third quarter of 2014.

Non-GAAP operating profit was US\$20 million, compared with a non-GAAP operating profit of US\$52 million in the second quarter of 2015 and a non-GAAP operating loss of US\$2 million in the third quarter of 2014. The year-over-year increase was due to a reduction in marketing and promotional spending for mobile internet products, reduced headcount, as well as an overall increase in operating efficiencies. The quarter-over-quarter decrease was mainly due to an impairment charge of US\$40 million recognized during the quarter, mainly related to the Dolphin Browser.

Other Income

Other income was US\$59 million, compared with US\$2 million in the second quarter of 2015 and US\$0.3 million in the third quarter of 2014. Other income includes one-off income related to gain recognized upon the divestment of 7Road and certain overseas assets during the third quarter.

Income tax expense

The Company's main operating entity in China is a "2015 National High-Tech Enterprise," and as a result, the entity is entitled to a preferential corporate income tax rate of 15% for the 2015 and 2016 tax years.

Income tax expense was US\$26 million in the third quarter of 2015, compared with US\$8 million in the second quarter of 2015 and US\$0.3 million in the third quarter of 2014.

Net income

Net income was US\$62 million, which compares with US\$43 million in the second quarter of 2015 and US\$1 million in the third quarter of 2014.

Non-GAAP net income was US\$59 million, which compares with US\$50 million in the second quarter of 2015 and US\$2 million in the third quarter of 2014.

Net loss attributable to non-controlling interests

GAAP and non-GAAP net loss attributable to non-controlling interests was US\$19 million in the third quarter of 2015, compared with US\$2 million and US\$1 million, respectively, in the second quarter of 2015, and US\$2 million in the third quarter of 2014. Non-controlling interests include the non-controlling interests in RaidCall, which provides online music and entertainment services primarily in Taiwan, and in MoboTap Inc., the developer of the Dolphin Browser. The year-over-year and quarter-over-quarter increases were mainly due to the impairment charge related to the Dolphin Browser that was recognized during the quarter.

Net income attributable to Changyou.com Limited was US\$81 million, compared with US\$45 million in the second quarter of 2015 and US\$3 million in the third quarter of 2014. Non-GAAP Disclosure

Revision of Non-GAAP Reporting

Prior to the fourth quarter of 2014, the Company's non-GAAP results excluded share-based compensation expenses, goodwill impairment, impairment of intangibles via acquisitions of businesses and the related tax impact, non-cash tax benefits from excess tax deductions related to share-based awards, and income/expense from the adjustment of contingent consideration previously recorded for acquisitions.

In the fourth quarter of 2014, the Company reassessed its definition of non-GAAP to better reflect the economic substance and performance of the Company. With the consideration that goodwill impairment and impairment of intangibles via acquisitions of businesses can be an indicator of the economic substance of the acquired businesses, Changyou revised its definition of non-GAAP to exclude only compensation expense associated with share-based awards, non-cash tax benefits from excess tax deductions related to share-based awards and income/expense from adjustments of contingent consideration previously recorded for acquisitions.

The Company's results for the third quarter of 2015 are presented using this revised definition of non-GAAP.

Revised Non-GAAP Disclosure

To supplement the unaudited consolidated financial information prepared in accordance with generally accepted accounting principles in the United States of America ("GAAP"), Changyou's management uses non-GAAP measures of gross profit, operating profit, net income, net income attributable to Changyou.com Limited and diluted net income attributable to Changyou.com Limited per ADS, which are adjusted from results based on GAAP to exclude the compensation cost of share-based awards granted, non-cash tax benefits from excess tax deductions related to share-based awards and income/expense from the adjustment of contingent consideration previously recorded for acquisitions. These measures should be considered in addition to results prepared in accordance with GAAP, but should not be considered a substitute for, or superior to, GAAP results.

Changyou's management believes that excluding share-based compensation expense, non-cash tax benefits from excess tax deductions related to share-based awards and income/expense from the adjustment of contingent consideration previously recorded for acquisitions from its non-GAAP financial

measures is useful for itself and investors. Further, the amount of share-based compensation expense, non-cash tax benefits from excess tax deductions related to share-based awards and income/expense from the adjustment of contingent consideration previously recorded for acquisitions cannot be anticipated by management, and these expenses are not built into the Company's annual budgets and quarterly forecasts, which generally will be the basis for information Changyou provides to analysts and investors as guidance for future operating performance. As share-based compensation expense, non-cash tax benefits from excess tax deductions related to share-based awards and income/expense from the adjustment of contingent consideration previously recorded for acquisitions does not involve subsequent cash outflow, Changyou does not factor this in when evaluating and approving expenditures or when determining the allocation of its resources to its business operations. As a result, in general, the monthly financial results for internal reporting and any performance measure for commissions and bonuses are based on non-GAAP financial measures that exclude share-based compensation expense, non-cash tax benefits from excess tax deductions related to share-based compensation expense, non-cash tax benefits from excess tax deductions related to share-based compensation expense, non-cash tax benefits from excess tax deductions related to share-based awards and income/expense from the adjustment of contingent consideration previously recorded for acquisition expense, non-cash tax benefits from excess tax deductions related to share-based awards and income/expense from the adjustment of contingent consideration previously recorded for acquisitions.

The non-GAAP financial measures are provided to enhance investors' overall understanding of Changyou's current financial performance and prospects for the future. A limitation of using non-GAAP gross profit, operating profit, net income, net income attributable to Changyou.com Limited and diluted net income attributable to Changyou.com Limited per ADS, excluding share-based compensation expense, non-cash tax benefits from excess tax deductions related to share-based awards and income/expense from the adjustment of contingent consideration previously recorded for acquisitions, is that the share-based awards and income/expense from the foreseeable future, non-cash tax benefits from excess tax deductions related to be a significant recurring expense in the Company's business for the foreseeable future, non-cash tax benefits from excess tax deductions related to share-based awards and income/expense from the adjustment of contingent consideration previously recorded for acquisitions related to share-based awards and income/expense from the adjustment of contingent consideration previously recorded for acquisitions may recur in the future. In order to mitigate these limitations the Company has provided specific information regarding the GAAP amounts excluded from each non-GAAP measure. The accompanying tables include details on the reconciliation between GAAP financial measures that are most directly comparable to the non-GAAP financial measures the Company has presented.

Notes to Financial Information

Financial information in this press release other than the information indicated as being non-GAAP is derived from Changyou's unaudited financial statements prepared in accordance with GAAP.
